

From the makers of **STOP IT® PIPE REPAIR SYSTEM**

PIPE REPAIR CLAMP™

Stop Active Pipe Leaks Fast with the PTFE Faced **STOP IT® PIPE REPAIR CLAMP™**

When product flow cannot be interrupted, contain the leak with a **STOP IT® PIPE REPAIR CLAMP™**. This handy tool is uniquely faced with **TEADIT®** expanded PTFE which is the most effective seal for all common chemicals and is food grade acceptable. The clamp conforms to most irregular surfaces and controls most pressures with simple hand-tightening. The **STOP IT® PIPE REPAIR CLAMP™** easily adjusts to fit common diameter pipe.

STOP IT® PIPE REPAIR CLAMP™ – TECHNICAL INFORMATION

Physical Properties

Adjustment range: 6" (15.2 cm) down to 11/16" (1.8cm). Clamps may be combined to fit larger diameter pipe

Materials: Band and housing made of corrosion resistant 301 CRES; heat-treated alloy screw and nut are cadmium plated

Polytetrafluoroethylene (PTFE) sealant material: Temperature range -450° F to 600° F (-268°C to 316°C)

Inert to all chemicals: Only molten alkali metals and elemental fluorine will affect this material

Non-aging

Will not contaminate flow materials

USDA: Acceptable for use in federally inspected meat and poultry plants

FDA: Fulfills 21 CFR 177.1550 Perfluorocarbon Regulations

Ordering information

Packaged: 10 clamps/case

Part number: 25267

Case dimensions: 12" x 9" x 5"
(31cm x 23cm x 13cm)

Case weight: 2 lbs (0.9kg)
